

# OUTDOOR LIGHTING SOLUTIONS

## SAFETY, SECURITY & CONVENIENCE

Central Hudson offers a variety of solutions to help brighten your home or business. Light up the exterior of your property and eliminate darkness in the corners of your yard, driveway, parking areas, paths, walkways, loading docks and storage areas. Our lights provide automatic protection from dusk until dawn.

Lighting for your home or business can be tailored to meet your individual needs. Central Hudson can provide you with choices in selecting the proper lighting design and our photoelectrically-controlled fixtures come complete with bracket, fixture and bulb.

*In addition to LEDs, we also offer high-intensity discharge (HID) lights such as metal halide and high pressure sodium.*

### COBRAHEAD

- Good for roadways and general illumination
- Mounts on a wooden utility pole

Lamp type	Lamp watts	Watt equivalent in HID bulbs	Lumens
LED	20	70	2,000
LED	53	150	5,250

## Picking the right pole for the right light

Central Hudson mounts lights on wood and fiberglass poles. Cobrahead, Highway Setback, Flood, Barn and Teardrop fixtures are typically mounted on standard wooden utility poles and Cutoff Rectangular, Colonial and Acorn fixtures are mounted on fiberglass poles that vary in height from 12' to 30'.

## General terms & conditions

- Central Hudson maintains the lighting fixture
- 3-year lease if installed on existing utility pole
- 5-year lease if utility pole installation is required
- A Central Hudson representative is available to discuss the current leased lighting prices
- Monthly lease/rental charges for the fixture and the current market electricity price will be invoiced on your utility bill
- The actual monthly cost of electricity may vary due to fluctuation in unregulated and wholesale energy supply costs
- Kilowatt hours (kWh) will vary depending on time of year
- Some installations may require customer contribution
- Underground lighting available in underground subdivisions only
