

REMOTE NET METERING

CENTRAL HUDSON GAS & ELECTRIC CORPORATION

Application for Remote Net Metering

Pursuant to General Information Section 37 of P.S.C. No. 15 – Electricity (“Tariff”)

Remote net metering is generally available to any customer that owns or operates non-residential photovoltaic or farm waste electric generating equipment, as defined in Public Service Law Section 66-j, or farm or non-residential wind electric generating equipment, as defined in Public Service Law Section 66-l, that is net metered pursuant to the applicable special provisions of Service Classification Nos. 1, 2, 3, 6 or 13.

Applicant must designate the customer meter where the net metering eligible resource is located (“Host Account”) and the customer accounts where the customer would like to apply excess net metering credits (“Satellite Accounts”) from the Host Account.

1. Applicant – Host Account

Account Name: _____

Address: _____

City: _____ Zip: _____

Phone: _____ e-mail: _____

Central Hudson Account Number: _____
(10 digits)

2. Satellite Accounts

Central Hudson Account Number (10 digits)	Portion (%) of Excess Credit to Apply (Optional)
XXXX-XXXX-XX	100%

This application for Remote Net Metering supplements but does not supersede any pre-existing Applications for Electric Service under the Tariff.

Service to be supplied to the Applicant will be supplied and conditioned on the Applicant's ongoing compliance with the terms, conditions and procedures set forth in both the Tariff and the Company's Specification and Requirements for Electric Installations (“Blue Book”) as both may be amended from time to time.

ACCEPTED AND AGREED:

Completed applications can be mailed to:
