Office of Electric, Gas and
Water

State of New York
Department of Public Service
Three Empire State Plaza
Albany, New York 12223-1350

Central Hudson Gas & Electric Corporation
Case Nos. 08-E-0887 & 08-G-0888
Response to Staff Information Request No. 201

From: Stella
Requested of: Electric Forecasting Panel
Date of Request: 8/29/2008

Stella: For Central Hudson's Electric Forecasting Panel (Bunt and Powers):

201) How much load is represented by customers who would qualify for an exemption from Hourly Pricing?

Response: Central Hudson has made the assumption that this question is in reference to the customers identified in response to Staff Information Request No. 200(B). Working under this assumption, this question is not applicable. Please see response to Staff Information Request No. 200(A).

a) How many customers would require the installation of new interval meters?

Response: Central Hudson has made the assumption that this question is in reference to the customers identified in response to Staff Information Request No. 200(B). Working under this assumption, and the additional assumption stated in the response to 200B, 33 of the 38 customers with demand greater than 750 kW but less than 1,000 kW would require the installation of new interval meters.

Date of Response: 9/8/2008
Response by: Electric Forecasting Panel (Bunt and Powers)

Central Hudson Gas & Electric Corporation
Case Nos. 08-E-0887 & 08-G-0888
Response to Staff Information Request No. 204

From: Stella
Requested of: Electric Forecasting Panel
Date of Request: 8/29/2008

Stella: For Central Hudson's Electric Forecasting Panel (Bunt and Powers):

204) How much load is represented by customers who would qualify for an exemption from Hourly Pricing?

Response: Central Hudson has made the assumption that this question is in reference to the customers identified in response to Staff Information Request No. 202. Working under this assumption, this question is not applicable. Please see response to Staff Information Request No. 200(A).

a) How many customers would require the installation of new interval meters?

Response: Central Hudson has made the assumption that this question is in reference to the customers identified in response to Staff Information Request No. 202. Working under this assumption, and the additional assumption stated in response to No. 202, 75 of the 80 customers with demand greater than 500 kW but less than 750 kW would require the installation of new interval meters.

Date of Response: 9/8/2008
Response by: Electric Forecasting Panel (Bunt and Powers)
